# Primaster MopCleaner

**Clean mops in a convenient way - In only a few seconds**

**The Primaster Mop Cleaner** is a light and easy machine especially developed for the cleaning and maintenance area and meant to clean mops in a convenient way.

The Primaster Mop Cleaner is suitable for all kinds of flat mops with different thicknesses. It also is suitable for mops of different width and for the treatment of moisture mops.

To avoid health hazardous dust re-entering into the work area or penetrating into respiratory organs, the machine has an outlet to connect a vacuum cleaner. The Primaster Mop Cleaner brush removes large and extremely small particles, holds them in the dustbin and are sucked out by the vacuum cleaner.

Just put the Primaster Mop Cleaner on a table or working desk and connect to any type of standard vacuum cleaner. In case, the mop gets caught between brush and protector, the Primaster Mop Cleaner will stop automatically.

Technical details:

Machine is CE-approved • Total weight 12 kg • 1420 r/min • 90 W / 230 V
